🐙 github.com/TheHemantPandey

Full Stack Developer with experience building 10+ production web applications and contributing to multiple mobile applications using React.js, Next.js, Node.js, and MongoDB. Experienced in developing secure APIs, authentication systems, payment integrations, and deploying scalable applications serving 1000+ users. Passionate about building high-performance software and solving real-world problems.

Experience

Young India Show NGO Foundation

January 2026 – Present

Full Stack Developer (Full-time)

July 2026 – Present

- Developed and maintained 10+ production web applications and contributed to multiple mobile applications for healthcare, NGO, and business platforms.
- Designed and developed 20+ REST APIs with authentication, payment integration, and database management using Node.js, Express.js, and MongoDB.
- Collaborated with Android developers, designers, and engineers while mentoring and guiding 5–6 intern developers during project development.
- Integrated critical third-party services including Razorpay, Google OAuth, Resend, Nodemailer, Calendly, and Cloudflare.
- Managed cloud deployments on Hostinger and Vercel, actively resolving production issues and improving application performance.

Full Stack Developer Intern

January 2026 – July 2026

- Developed production-grade web applications with responsive interfaces, secure authentication, and scalable backend architecture.
- Designed secure REST APIs, authentication systems, and database workflows to power appointment booking and donation modules.
- Managed seamless deployment pipelines utilizing GitHub, Hostinger, and Vercel.
- Optimized front-end interfaces for SEO, responsiveness, and overall application performance for high-traffic platforms.

Projects

Mission 100 Hospital | Next.js, MongoDB, Razorpay, Hostinger

January 2026 – July 2026

- Built a production healthcare platform serving 1000+ users with patient registration, appointment booking, and online payments.
- Developed secure backend APIs and integrated Razorpay payment gateway with automated payment verification.
- Designed responsive dashboards and optimized deployment using Hostinger.
- Live Website

Young India Show Foundation Website | Next.js, MongoDB, Hostinger, SEO

2026

- Developed the official NGO website with volunteer registration, donation workflows and event management.
- Built responsive UI using Next.js and Tailwind CSS.
- Improved website SEO, page performance and deployment pipeline.
- Live Website

PUNPUN Digital Agency | Next.js, Framer Motion, Tailwind CSS

2026

- Developed a modern digital agency website with responsive layouts and animated UI.
- Designed reusable components, interactive landing pages and optimized SEO.
- Live Website

Mailspace – Custom Webmail Client | Next.js, Resend API, Cloudflare Routing

April 2026 – Present

- Built a full-stack webmail platform supporting custom domain email communication through Cloudflare Email Routing and Resend API.
- Implemented Google OAuth authentication, inbox management, folder organization, and HTML email rendering.
- Designed backend synchronization workflows for inbound and outbound email management.

- Enhanced platform functionality for founders, investors, and business owners seeking mentorship and networking opportunities.
- Implemented scheduling workflows, secure document uploads, and backend management systems.
- Supporting 100+ founders, entrepreneurs, investors, and industry mentors through a scalable networking platform.
- Live Website

- Developed a secure full-stack password manager with complete CRUD functionality and credential management.
- Built REST APIs and MongoDB backend supporting secure storage and retrieval of user credentials.
- Implemented responsive UI using Tailwind CSS and copy-to-clipboard functionality.
- Live Website | GitHub

Technical Skills

Languages: JavaScript · Java · Python · SQL
Frontend: React.js · Next.js · Tailwind CSS · Redux · Framer Motion
Backend: Node.js · Express.js · REST APIs
Databases: MongoDB · MySQL · Firebase
Authentication: JWT · NextAuth · Google OAuth
APIs & Services: Razorpay · Resend · Nodemailer · Calendly
Deployment: Hostinger · Vercel · Cloudflare
Tools: Git · GitHub · Postman

Portfolio Highlights

- | | |
|-------------------------------|-------------------------------|
| ✓ 10+ Production Websites | ✓ Payment Gateway Integration |
| ✓ 3+ Mobile App Contributions | ✓ Authentication Systems |
| ✓ 20+ REST APIs Developed | ✓ Cloud Deployment |
| ✓ 1000+ Registered Users | ✓ Responsive UI Development |

Achievements

- Developed and deployed 10+ production web applications.
- Contributed to 3+ production mobile applications.
- Built backend systems serving 1000+ registered users.
- Developed 20+ REST APIs and backend services.
- Mentored and guided 5–6 intern developers during project development.

Leadership & Collaboration

- Mentored and guided 5–6 intern developers during feature development and project delivery.
- Collaborated with Android developers, designers, and backend engineers to build and maintain production web and mobile applications.

Certifications

- **HackerRank SQL** – Intermediate
- **Scaler** – Java: Mastering the Fundamentals

Education

J.C. Bose University of Science and Technology (CGPA: 8.1/10.0)

August 2023 – July 2026

Bachelor of Technology in Computer Science Engineering (Lateral Entry)

Faridabad, Haryana

Raja Jait Singh Government Polytechnic (CGPA: 8.0/10.0)

August 2021 – May 2023

Diploma in Electrical Engineering (Lateral Entry)

Faridabad, Haryana
