🐙 github.com/TheHemantPandey

Full Stack Developer with 1+ year of combined hands-on development experience building and deploying production web applications, client projects, and backend systems. Strong experience with React.js, Next.js, Node.js, Express.js, MongoDB, REST APIs, authentication, payment integrations, webhooks, third-party APIs, and cloud deployment. Personally developed 15+ websites and backend systems and delivered 8–10 freelance client projects, contributing to 10+ production applications supporting 2,000+ users across healthcare, non-profit, investment, education, restaurant, and business domains. Experienced in owning projects end-to-end from requirements gathering, solution planning, UI development, backend architecture, database design, API development, testing, deployment, debugging, and maintenance. Additional experience integrating Gemini/OpenAI APIs and using AI-assisted development workflows for application development, debugging, security checks, testing, and API implementation.

Experience

Young India Show Foundation

July 2026 – September 2026

Full Stack Developer

Delhi / Noida

- Continued as a Full Stack Developer after completing the internship, taking ownership of production applications, backend systems, integrations, deployments, debugging, maintenance, and technical delivery.
- Developed and maintained production applications using Next.js, React.js, Tailwind CSS, Node.js, Express.js, and MongoDB across healthcare, non-profit, investment, and business use cases.
- Designed and implemented REST APIs, CRUD workflows, authentication, role-based access control, database operations, form processing, file uploads, email workflows, and administrative systems.
- Integrated Razorpay, Google APIs, Google OAuth 2.0, Resend, Nodemailer, Calendly, webhooks, and third-party APIs to support payments, authentication, communication, scheduling, and business workflows.
- Implemented and worked with payment verification, webhook-based processing, API-to-API integrations, transactional email workflows, validation, error handling, security controls, and production debugging.
- Worked as a primary developer and technical lead within the development team, reviewing implementations, guiding interns, coordinating with founders, managers, developers, and clients, and translating requirements into technical solutions.
- Managed Git-based development, branching, pull requests, code reviews, CI/CD, production deployments, environment configuration, domain/hosting setup, SSL, API testing, and maintenance using GitHub, GitHub Actions, Vercel, Hostinger, and Postman.

Young India Show Foundation

January 2026 – July 2026

Full Stack Developer Intern

Delhi / Noida

- Built and maintained production web applications using Next.js, React.js, Tailwind CSS, Node.js, Express.js, and MongoDB, working across frontend, backend, database, and deployment layers.
- Developed 20+ REST API endpoints and backend workflows supporting user registration, appointment booking, donations, payments, email notifications, administrative operations, and database-driven processes.
- Implemented authentication and authorization workflows using JWT, Google OAuth 2.0, role-based access control, request validation, secure API handling, and database operations.
- Built and tested complete form-to-API-to-database workflows, including CRUD operations, payment verification, transactional emails, webhook processing, file handling, and production error handling.
- Worked with Git branches, pull requests, code reviews, GitHub Issues, GitHub Actions, CI/CD, and production deployments while troubleshooting application, API, database, and deployment issues.

Freelance Web Developer

May 2025 – February 2026

Freelance Full Stack / Frontend Developer

Remote

- Delivered 8–10 client projects end-to-end across education, restaurant, portfolio, management, landing-page, and custom web applications.
- Personally developed 15+ websites and backend systems using React.js, Next.js, Tailwind CSS, Node.js, Express.js, MongoDB, and REST APIs.
- Built responsive UIs, REST APIs, database workflows, authentication, admin features, payment integrations, email systems, and third-party API integrations.
- Managed client communication, debugging, payment workflows, deployment, domain/DNS, SSL, hosting, environment configuration, and production support.

Selected Projects

Mission 100 Hospital | *Next.js, Node.js, MongoDB, REST APIs, Razorpay* 2026

- Developed and maintained a production healthcare platform supporting patient registration, doctor and test booking, memberships, packages, dashboards, and online payments for 2,000+ users.
- Designed and implemented backend APIs, database workflows, booking operations, transactional email workflows, and Razorpay payment integration with server-side payment verification.
- Implemented responsive UI, SEO, analytics, production deployment, monitoring, and maintenance workflows for a live healthcare application.
- [Live Website](#)

Mailspace – Custom Webmail Client | *Next.js, Google APIs, Resend, Cloudflare* 2026

- Designed and developed a full-stack custom-domain webmail platform using Next.js, Google OAuth 2.0, Google APIs, Cloudflare Email Routing, Resend API, and webhook-based email processing.
- Implemented inbox management, HTML email rendering, folder organization, email synchronization, inbound/outbound workflows, automated notifications, and application-level email processing.

Vayu Galaxy | *Next.js, React.js, Tailwind CSS, Framer Motion, GSAP* 2026

- Developed a modern production web platform with reusable React components, responsive layouts, interactive animations, optimized navigation, and scalable page architecture.
- Implemented SEO-focused metadata, performance-conscious frontend architecture, responsive experiences, and interactive user interfaces across the platform.
- [Live Website](#)

Young India Show Foundation Website | *Next.js, Node.js, MongoDB, REST APIs* 2026

- Developed an NGO platform with volunteer registration, donation workflows, events, contact forms, and administrative functionality for production use.
- Built secure form-to-API-to-database workflows with validation, database operations, automated email communication, and backend processing.
- [Live Website](#)

PUNPUN Services | *Next.js, Tailwind CSS, Framer Motion, SMTP* 2026

- Developed a responsive digital agency platform with reusable components, service interfaces, animations, contact workflows, consultation flows, careers, newsletter functionality, and SEO implementation.
- Implemented server-side communication workflows and production-ready frontend architecture for business-facing website functionality.
- [Live Website](#)

Technical Skills

Languages: JavaScript (ES6+) · TypeScript · Java · Python · SQL · HTML5 · CSS3

Frontend: React.js · Next.js · Tailwind CSS · Framer Motion · Responsive UI

Backend & APIs: Node.js · Express.js · REST APIs · CRUD · Middleware · Webhooks · API Integration

Databases: MongoDB · Mongoose · MySQL · Database Design

Authentication & Security: JWT · NextAuth.js · Google OAuth 2.0 · Role-Based Access Control · API Security

Payments & Integrations: Razorpay · Payment Verification · Google APIs · Nodemailer · Calendly API · Cloudflare

AI & Automation: Gemini API · OpenAI API · LLM Integration · Prompt Engineering · AI-Assisted Development · n8n

DevOps & Tools: Git · GitHub · GitHub Actions · CI/CD · Vercel · Hostinger · Postman · Google AI Studio · Cursor

Key Highlights

- | | |
|---|-----------------------------|
| ✓ 1+ Year Combined Development Experience | ✓ 2,000+ Users Supported |
| ✓ 8–10 Freelance Client Projects | ✓ 3 Android Apps Published |
| ✓ 15+ Websites Personally Developed | ✓ Payment & API Integration |
| ✓ 10+ Production Web Applications | ✓ AI / LLM Integration |
| ✓ 20+ REST APIs Developed | ✓ Git, CI/CD & Deployment |

Education

J.C. Bose University of Science and Technology

Bachelor of Technology in Computer Science Engineering (Lateral Entry) — CGPA: 8.1/10.0

August 2023 – July 2026

Faridabad, Haryana

Raja Jait Singh Government Polytechnic

Diploma in Electrical Engineering (Lateral Entry) — CGPA: 7.6/10.0

August 2021 – May 2023

Faridabad, Haryana
